

Destroyit® Model 4109 Shredder/Baler

The Destroyit 4109 makes document and record disposal fast and easy for large facilities such as banks and hospitals.

The innovative model 4109 uses 9 tons of pressure to compress shreds into bales for safe, efficient disposal.

Destroyit 4109 Features

- Large feeding table with quiet conveyor belt delivery system.
- Easy to use control panel includes push buttons for forward/stop/reverse, safety key lock, main and emergency switches.
- Automatic shut-off with optical indicator alerting when door is open, the press chamber is full or when baling is completed.
- Continuous high pressure baling with time controlled press-cycle.
- Durable, low-maintenance hydraulics for power transmission are electronically controlled for safe operation.
- Special hardened steel cutting head not affected by soft metal objects.
- Convenient built-in oil lubrication mechanism with low oil warning indicator and safety cut-off.
- Entire machine is movable on casters.
- Shredded material automatically ejects into a weather-proof plastic bag.
- Bales can be stacked, transported easily and stored outdoors.
- **Recommended Supplies:** 0922 shred bags and shred oil.
