Currency Counting Machines

Magner Model 35

The Model 35 Currency Counter was designed for basic counting and simplicity of operation. High Quality Control insures consistency in the manufacturing of our product and has been instrumental in making the Model 35 the number one selling currency counter worldwide. Standard features such as 1,300 documents per minute, touch sensitive controls, automatic start, variable presets, and grand total accumulation, insure a high level of operator productivity.

Magner's Currency Counters have evolved from years of experience. Customers worldwide are assured of ongoing support of all Magner products through our network of authorized Distributors and our direct Technical Support Team (TST).
